

**Fresh
Produce
Group**

Established in 1991 by Robert Nugan, our business has grown into one of Australia's largest family owned innovative produce suppliers.

Fresh Produce Group source produce from our own farms and partner farms across Australia.

We continue to grow our investment in Australian farms – **table grapes, berries, citrus**. From wholly owned farms to joint ventures a continued vertical integration strategy underpins our approach.

Our complete offering includes growing, sourcing, exporting, importing, packaging, ripening and distributing quality produce.

A photograph of a man and a woman standing in a large warehouse or distribution center. Both are wearing high-visibility yellow safety vests over their work clothes. The man is on the right, wearing a dark sweater and a collared shirt, and is smiling. The woman is on the left, wearing a grey trench coat, and is looking towards the camera. The background is filled with stacks of cardboard boxes and industrial shelving, with overhead lights illuminating the space.

One of Australia's largest
family owned innovative
produce suppliers

Fresh from the farm
to you within 72 hours

Fresh Produce Group has a reputation for growing and supplying the best produce Australia has to offer

- We source directly from our farms or our partner farms across Australia.
- Our dedicated Account Managers understand the regions they work within and the products and varieties your customers prefer.
- Our superior cool chain distribution network means our produce can be air freighted to anywhere in the world within 72 hours.
- Our experience and expertise in logistics and produce management ensures that you take delivery of the highest quality Australian produce.
- Experts in consolidation and logistics for both air and sea.
- Extensive knowledge in exporting for long voyage markets.
- Our fully traceable delivery system ensures product safety.
- We have a range of pre-pack options that can be developed specifically for your customer.
- Our in house marketing department can develop and implement bespoke marketing programs.

A successful harvest
begins with careful
preparation

Quality Assurance

We invest in technical innovation to ensure our systems provide end to end freshness and food safety

Our technical team are experts in their respective fields, blending science and research training with industry knowledge and experience.

- Our Product Technologists travel across our supply chains, monitoring produce safety and quality from grower through to retail.
- Quality control officers conduct detailed product assessments and testing using the latest technology to ensure quality is maintained across our supply chains.

Our quality compliance program provides end to end food safety and quality assurance. We maintain certification to leading international food safety standards.

Quality produce for
international markets

Innovation

We recognise that innovation is the catalyst to growth

We know consumers tastes and needs constantly change. Our development team are continuously cultivating new and superior produce varieties that meet evolving consumer needs.
